ARENA GREEN GROWTH

Thesis scholarship 2017

The purpose of the scholarships is to promote student projects produced in the field of Green Growth.

CRITERIA

To apply for the scholarship you need to:

- Be doing your thesis in collaboration with one or more companies
- Be a student at Halmstad University
- Do your thesis related to Green growth

Green growth is defined according to the Swedish Growth Agency (2017) as "reducing the climate impact of business and at the same time taking into account the business opportunities in the environmental area". Your thesis includes areas such as bioenergy, forest and food for instance - the three focus areas of Arena Green Growth.

Three scholarships are awarded. Announcement of recipients and dividend will take place at Arena Green Growth's final seminar 29/5.

APPLICATION

- Project title.
- A summary where the following parts must be included: Project idea, project description, problem description, target group, supervisor at Halmstad University, partner and contact person at the company or organization that participated in the degree project.
- Name, social security number, address, telephone number, e-mail and current education for all members in the project group.
- Most important! Motivation to why this degree project should receive a scholarship.

Apply before 17/5 by email to:
jasmine.lindeberg@hh.se

Applications are reviewed by a jury. Applicant may be asked to submit their report to the jury, no later than 24/5.
